FCWIN PROGRAM UPDATES JUNE 2010

1. Programming has added 4 new Charge Codes to bring total to 10 Charge Codes for properties to utilize. Properties have option of changing label on 6 of these to represent what is needed. There are still an unlimited number of Journal Codes.
2. We have added 5 new Payment Codes for properties to use to bring total to 15 Payment Codes for properties to utilize. Properties have option of changing label on 5 of these to represent what is needed.
3. We have changed the Payment Code K to be for "Checks" as properties had requested Cash and Checks to be separated. This is still part of the Shifts Drop figures.
4. All reports have been revised to include the new charge and payment codes.
5. Most Reports available on the **FCWIN** side of the software can be saved to an Excel spreadsheet (provided the property has Microsoft Excel running on the workstation).
6. Most Reports written on the **FCWIN** side can be created in a PDF and the PDFs can be e-mailed.
7. The HSS **FCWIN** program allows Directs Bill Statements to be e-mailed as PDF attachments.
